Battelle for Kids

As a district leader deeply engaged in the work of spreading and scaling your district's vision, there are many issues you face on a daily basis.

Here are a just a few of those pain points that likely stand out:

- First, Portrait to Practice – how do you create meaningful classroom experiences that bring your vision for 21st century learning to life, making your district's vision—the Portrait of a Graduate—a reality for all students?
- Second, Human Capital – how do you align, find, grow, and keep the people who will bring the vision to life?
- Finally, Community Engagement – how do you rally your community around the vision—the Portrait of a Graduate—and engage your stakeholders to build and sustain momentum?

Battelle for Kids can help. We've worked with hundreds of districts across the country to co-create and implement solutions to the big issues leaders face today.

As you prepare for the new year ahead, we would love to have a conversation to discuss how we can support your next big move.

Our Mission/Our Commitment

The LEARNING 2025 leadership team and strategic mentors engage communities, staff, and boards in discussions about strategies to address existing and perceived barriers to district transformation. Many of the challenges we face are not problems that have an obvious or quick answer; rather, they are challenges, conundrums, and polarities that need to be navigated. We are committed to involving all stakeholders in identifying, managing, and breaking those barriers so that leaders can focus on the whole system.
