At each school, you will have the opportunity to tour the learning space interact with school leaders, educator team members and students.

After the site visits, you will work with the Next Education Workforce team to consider how you can apply what you've learned to your own context. We encourage teams to attend together and to consider using the site visit as a shared experience that helps prepare you to launch your own Next Education Workforce models.

Interested in launching your own Next Education Workforce model? Register for the [AASA Next Education Workforce Learning Cohort](#). If you are an AASA Learning 2025 Network district, this cohort could be your complimentary cohort choice - please select it on the Cohort Choice Form versus signing up for the cohort through the registration link.

*Please share the early registration links only with your invited AASA members, and please do not tell other groups or district partners that we are providing AASA with an exclusive early registration opportunity. While we wish that we could accommodate all requests, we are unable to provide early registration for other groups and organizations. Early registrations ends August 9, 2023. We will not be able to extend the early registration window.

Our Mission/Our Commitment

The LEARNING 2025 leadership team and mentors/consultants engage communities, staff, and boards in discussions about strategies to address existing and perceived barriers to district transformation. Many of the challenges we face are not problems that have an obvious or quick answer; rather, they are challenges, conundrums, and polarities that need to be navigated. We are committed to involving all stakeholders in identifying, managing, and breaking those barriers so that leaders can focus on the whole system.
