3	3	3	3	5	5	4	As there is a big push for CTE funding through various bills and the Advanced Opportunities bill, I think we may want to plan a speaker who can discuss the future of work. Technology is being integrated in every aspect of the work environment so schools need to develop computer science courses to provide students skills to enter the work force prepared.
5	5	5	5	5	5	5	Another well run event - thanks for your work! I'd like to see more fruit and greens on the snack table, a minor suggestion but that's all I can come up with presently.
5	4	4	5	5	5	3	I think that we may be missing a fair amount of superintendents that aren't coming because they don't believe the day of advocacy is the best use of their time, and that the actual superintendent conference is somewhat of an afterthought. I realize the importance of the advocacy, but I think there may be better ways to accomplish similar results, and also increase the professional development opportunities for supts taking time away from their school. If we could consider more of a hybrid day on the Monday of legislative years, combined with a stronger drive to get all legislators and superintendents together at some time during the day, I think it could be as effective and better attended. Only a slight concern on the school size breakout sessions this year - we need to find a way to encourage the sharing of solutions instead of just problems. This year there was a lot of discussion about problems without any solutions offered in the Class C group.

4	5	4	5	5	5	5	You guys did a great job. I know it is a busy time of year, but I wished we could have had more time in the breakout sessions and perhaps followed up with some type of documentation that could be grown in to actionable items. I would have also liked if we all met and summarized our discussions as a whole. Thanks for everything.

3	5	4	5	5	3	4	I am sorry, but I get tired of Lance and Eric patting themselves on the back. We all work hard at our jobs and to think Lance spends 18 hours a day is total B.S. and Eric is only going to be happy when he is in charge of every union in the State. Kirk, Dennis understand what it is like to be a superintendent and all the other items we must manage daily.

5	5	5	5	5	5	5	Really enjoyed the breakout session. It wouldn't be bad to be with a different affiliate such as A and B...Maybe C and AA just as a change up...I think many of our issues would be similar in nature...
