

#### Student Data Privacy Consortium

# **Tactical Student Data Privacy Update**

### The SDPC:

- Was started in 2015 due to numerous stakeholders addressing data privacy "Pain Points"
- Is organized as a Special Interest Group (SIG) under the Access 4 Learning Community (a 501c3 Member Tech Standards Organization)
- Maintains its own governance, oversight and resource support
- Has schools, districts, regional and state education agencies, other professional organizations and marketplace providers as members
- Is supported through membership dues

# **SDPC Goals**

**Establish a community of stakeholders** who have various needs addressed through policy, technology and/or effective practice sharing around effective privacy management,

Identify **projects that have on-the-ground and real-world impact** on student data privacy enabling schools, districts, state and vendors find resources, adapt them to their unique context and implement needed protections,

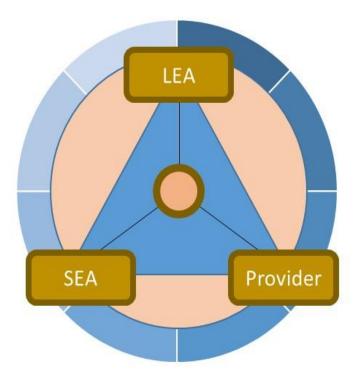

Development of **tools and resources** to address operational issues not currently being addressed,

**Leverage partnership** organizations working in the privacy space to have their good work utilized and no reinvention of existing work,

Development of a **clearinghouse of student data privacy operational issues** and resources to support schools, districts, states and vendors in managing those issues – no matter where the resources originate.

# **SDPC Scope and Opportunity**

Consortia sponsored products/tools services

Consortia membership, ideals, mission

Tangential initiatives and groups, including privacy initiatives, funders, etc

Core stakeholder/consumer/client

Stakeholder relationship driving core directives through pain points

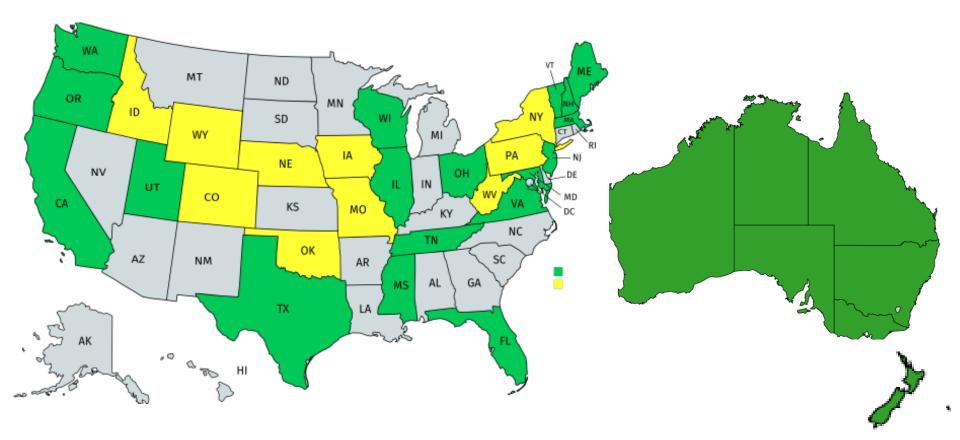

# **SDPC Tactical Privacy Projects**

### • Project 1: Privacy Contract Framework

 The Privacy Contract Framework project is focused on the development a framework for identifying solutions that have onthe-ground and real-world impact on student data privacy enabling schools, districts, state and vendors find resources, adapt them to their unique context and implement needed protections. Application Profiles will be developed to support "apples to apples" comparisons.

## Alliances, Alliances, .....

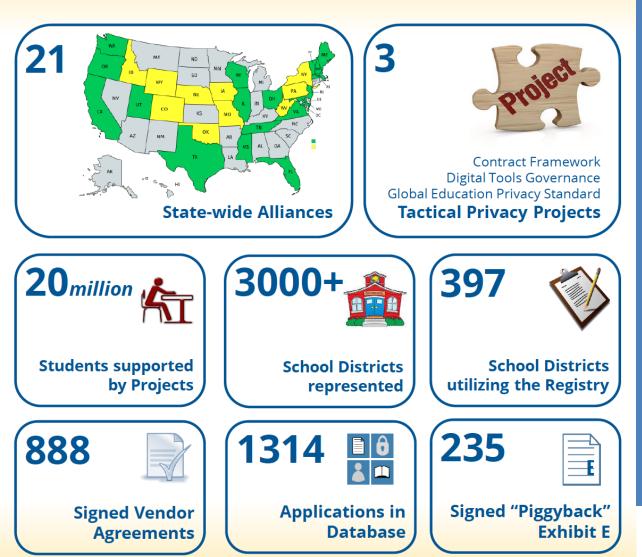

SDPC State/Territory Alliances (Green) and in Process (Yellow)

*Currently 20 million Students Impacted by over 1250 Applications!* 

### Privacy – By The Numbers...

the Student Data Privacy Consortium (SDPC)

"The California Educational Technology Professionals Association (CETPA), representing over 1,000 districts, has joined the Student Data Privacy Consortium. The Consortium has a mature process for establishing a statewide contract and a database for posting vetted applications and provides transparency to staff and community. Collaboratively working with our partners, we expect to build clear steps that will streamline the process in protecting our student's data by having a state-wide contract demonstrating compliance with CA legislation."

# **SDPC Tactical Privacy Projects**

- Project 1: Privacy Contract Framework
  - The Privacy Contract Framework project is focused on the development a framework for identifying solutions that have on-the-ground and real-world impact on student data privacy enabling schools, districts, state and vendors find resources, adapt them to their unique context and implement needed protections. Application Profiles will be developed to support "apples to apples" comparisons.

### • Project 2: Digital Governance Tool

 The Digital Tools Governance project centers around developing a comprehensive framework for aligning a school system's policy landscape, strategic programming, tactical processes, and accountability mechanisms to support the system's vision of how its digital tool ecosystem will advance its overall mission and goals while minimizing its risks of data privacy and security incidents.

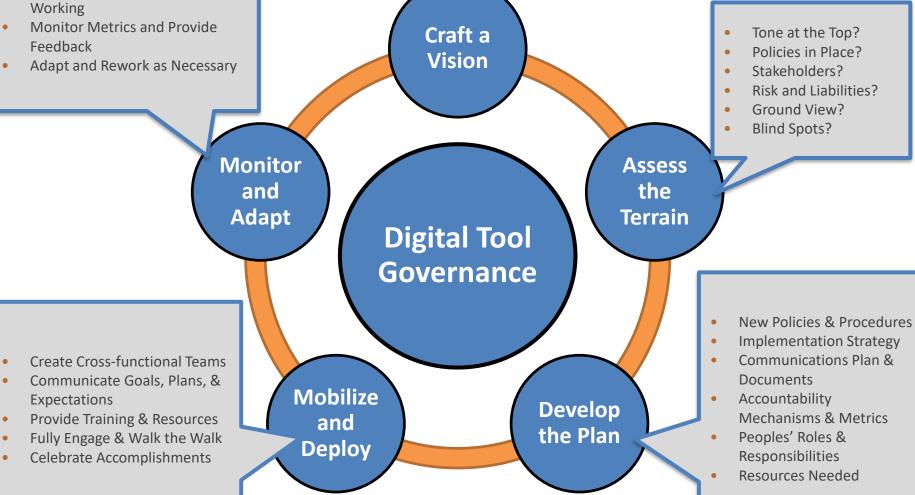

#### **Framework for Transformative Digital Governance**

# **SDPC Tactical Privacy Projects**

#### • Project 3: Privacy Connect

- Teacher A finds the greatest application in the world to teach his/her subject matter to students. What does it take from him/her asking for the application to be used with his/her students to having students using the application?". This may include various owners (legal, technical, fiscal, etc.), critical areas of concern (privacy, security, parental notice, etc.) and impact (academic alignment, usage, other options, etc.). The "Connect" project's focus is to see how many of these steps can be standardized, automated, or establish effective practices so we all are not starting from scratch each time. The goal is to streamline application selection, vetting, on boarding (sharing properly protected data elements), and final implementation with marketplace norms.

# Project 3: SDPC Tactical Privacy "Connect"

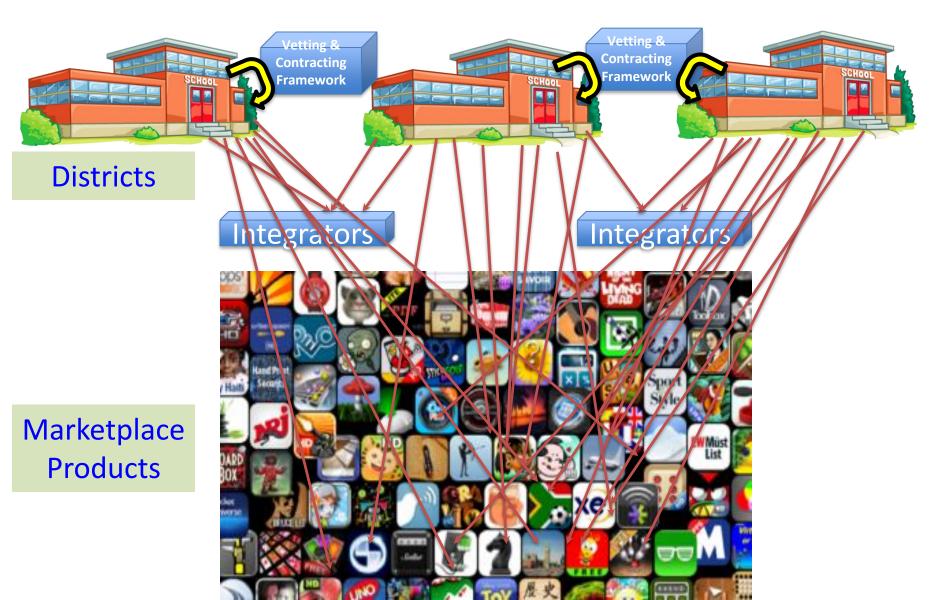

The

**<u>Goal</u>:** Support data stewards and their institutions to address student data privacy from application identification to application utilization.

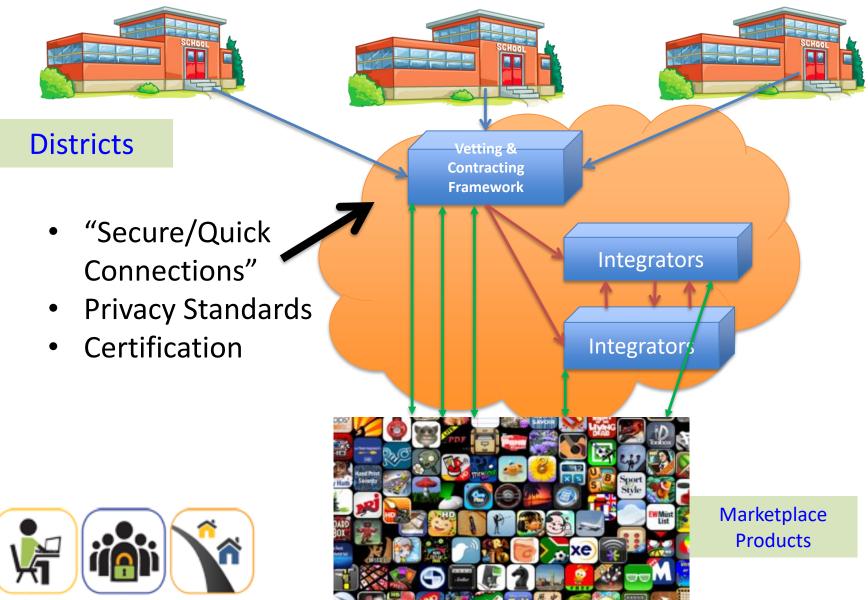

- Application Vetting (Digital Tools Governance/SDPC App)
  - Privacy Contract Wording (Contract Builder)
    - Technical Requirements (Technical Standards)
      - Workflow Automation (SDPC Application)
        - Automate Data Exchanges via
          Privacy Requirements (TBD)
- Stakeholder Communications at Each Step
